**OBJECT: Transformation of KF s.r.l. in KF s.r.l. Società Benefit**

Dear Customers, Suppliers, Partners, Institutions, and Involved Parties,

We are pleased to inform you that, with effect from the 30th of December 2020, KF srl has transformed its company name into KF srl Società Benefit, consequently updating and expanding its corporate charter.

In a rapidly changing world scenario, we believe this step is even more important to allow us to set more clear growth objectives and market positioning, both aligned with company values.

For years, KF has been actively committed to Corporate Social Responsibility, with concrete support actions towards local communities and beyond, and with support actions aimed at helping the most needy realities (in addition to historically hosting the AMAZONIA non-profit organization, it has recently started a new project with Caprari Spa in KENYA).

With this step, we formalize in a concrete way the ethical and social spirit that has always been present in the DNA of the company, allowing us to be able to set with greater solidity and conviction our goals of growth and sustainability.

A broader approach which will lead the company to deposit a Social Report that will clearly formalize the actions that KF will have undertaken in these fields:

- Governance policies
- Environmental sustainability actions
- Measures to support the community
- Policies to support human resources
- Supply chain activities

A Green approach focused on resources, circular and sustainable policies, conscious design, waste reduction, well-being and safety of people, corporate welfare supported by training aimed at professional growth, measures to promote cooperation and creativity as inspiring elements of a positive and collaborative business climate.

Hoping you would appreciate it, we share with you all our commitment in doing our part to build a better world.

The situation that surrounds us shows that we are all interconnected and, for this reason, we would like to transfer all our positivity in facing the challenges that await us in the next future.

We send you our best wishes for a new year full of opportunities and health for everyone and, on this occasion, we invite you to update our company data on your ERP system changing our company name into "KF Srl Società Benefit", even if our VAT code will remain unchanged (IT02385320367).

The Direction

**KF s.r.l. Società Benefit**
