

COIN HOPPER

TREMIÉ DE DISTRIBUTION DE PIÉCES

MÜNZBEHÄLTER

WH-3

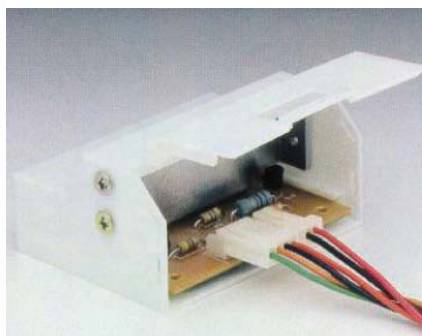

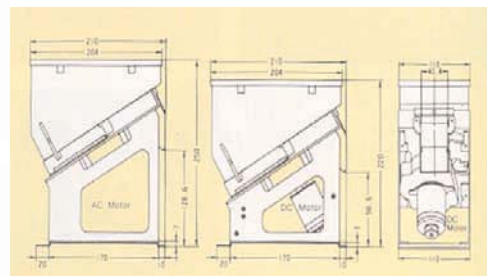

The WH-3 is specifically designed to handle large diameter coins at high speeds whilst occupying a small space. Like the WH-1 and the WH-2 models, this hopper is capable of dispensing the entire contents of its head.

L'unité WH-3 a été spécifiquement conçue pour prendre en charge des pièces de grand diamètre à de grandes vitesses en occupant un petit espace. Tout comme les modèles WH-1 et WH-2, cette tremie peut distribuer la totalité du contenu de sa tête.

Der WH-3 ist besonders gut für die schnelle Ausgabe von Münzen grossen Durchmessers geeignet und nimmt dennoch nur wenig Platz ein. Wie auch die Modelle WH-1 und WH-2 ist dieser Behälter in der Lage, seinen gesamten Inhalt auszugeben.

FEATURES

The WH-3, whilst only 110mm wide, handles large coins or tokens at high speed. In trials the WH-3 dispensed coins of 38mm diameter at a rate of 550 coins per minute. The rotating disc, below the hopper head, ensures efficient dispensing of the entire hopper contents.

TECHNICAL SPECIFICATIONS

- **Applicable Coin Size:**
 Diameter: 24.3 – 39.0 mm
 Thickness: 1.6 – 3.2 mm
- **Dispensing Speed::**
 550 coins per minute (approximately)
- **Coin Capacity::**

Coin size (example)	Head Capacity
30.8mm diameter	550
38.0mm diameter	220
- **Counting Method:**
 Proximity Sensor
- **Motor (Voltage) Options:**
 24V DC
- **Current Consumption (Peak):**
 24V DC: 4.0A
- **Operating Temperature:**
 -10°C to +60°C
- **Weight:**
 WithDCMotor: 2.6kg(approx)
